YOGA

Mind. Body. Spirit.

Yoga connects us to ourselves, one another, and the universe.

I explore a wide variety of fields to find areas that allow me to reach out to people and connect with them on a deeper level.

The design was inspired by the massive influence of the global Yoga culture and the many little, yet profound ways it changes our daily lives. The quieter you become, the more you can hear.

ICONIC ART

The Thinker

The Thinker is a sculpture created by the 19th-century French artist Auguste Rodin. The sculpture continues to influence today's art and design world, representing the philosophical thinking behind art and the connection between mental efforts and creativity.

Classic art inspires me on a personal level and affects my work process, from the initial sketch stage to the final version of each design. I think, therefore I am.

ILLUSION ART

Waterfall

The Waterfall is a lithograph by the Dutch artist M.C. Escher, which was first printed in 1961. The artist used conflicting proportions to create an optical illusion that draws viewers in. The intriguing visual paradox invites you to stare and get lost in the image. As an artist, I find the ability to create something that cannot physically exist fascinating.

What we see depends mainly on what we look for.
-John Lubbock.

Cookies with Fondant Icing

INGREDIENTS:

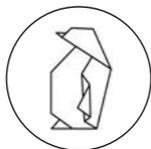

- ¼ cup butter
- 1 (16 ounce) package miniature marshmallows
- ¼ cup water
- 1 tsp vanilla extract
- 2 pounds confectioners' sugar, divided

INSTRUCTIONS:

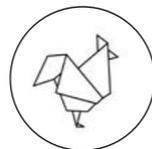

- Place the butter in a shallow bowl, and set aside
- Place the marshmallows in a large microwave-safe bowl, and microwave on high for 30 seconds to 1 minute to start melting the marshmallows. Carefully stir the water and vanilla extract into the hot marshmallows, and stir until the mixture is smooth. Slowly beat in the confectioners' sugar, a cup at a time, until you have a sticky dough. Reserve 1 cup of powdered sugar for kneading. The dough will be very stiff
- Rub your hands thoroughly with butter, and begin kneading the sticky dough. As you knead, the dough will become workable and pliable. Turn the dough out onto a working surface dusted with confectioners' sugar and continue kneading until the fondant is smooth and no longer sticky to the touch, 5 to 10 minutes
- Form the fondant into a ball, wrap it tightly in plastic wrap, and refrigerate overnight. To use, allow the fondant to come to room temperature, and roll it out onto a flat surface dusted with confectioners' sugar
- Cut into desired shape, print & serve

- 3 tbsp meringue powder
- 4 cups sifted confectioners' sugar
- 6 tbsp of water

INSTRUCTIONS:

- Sift together the sugar and meringue powder
- Beat all ingredients at low speed for 7 to 10 minutes, or until icing forms peaks
- Scoop into piping bags and decorate your cookies and cakes
- Place cookie on a cup to print
- Print & Serve

TIP: Also works well with donuts and other frosted deserts
