Ripple Maker Guide

SECTION 1: The Kit

RIPPLE KIT ITEMS

Ripple Maker + Power Cord + Drip Tray + Wifi Dongle + Beer Mat for tray

Lume Cube Mobile Light + Smartphone holder

2 Malt Cartridges

THE MACHINE

- 6 ft long power cord
- Must be placed near outlet
- Runs on WiFi to print personal images, can print preset images without WiFi

Width: 8.5in/ 2221m Height: 23in /495mm

UNBOXING & SETUP

- Place the Ripple Maker on a surface level (table, countertop, bar top.)
- Plug into a nearby electrical outlet.
 - Ideal position is close to bartender/taps
- Connect the power cord to the power input located at the back of the Ripple Maker. Plug the other end into the wall outlet.
- Unbox the Edimax (WiFi adapter) and insert it into the USB port on the back of the Ripple Maker
- Switch on the Ripple Maker by pressing the on/off button at the base of the Ripple Maker and wait for the system to boot up

*It is important to always keep the Ripple Maker on and plugged in while executing an event. If the Ripple Maker turns off, it will dry out the pod and not print properly. *

SECTION 2: The Setup

UNBOXING & SETUP CONT.

 Attach LumeCube to mobile device using smartphone holder
